TECHNICAL

Cat. II

EN388:2016

TECHNOLOGY

APPLICATIONS

Logistics & Warehousing / Field Work
Gardening / General Purpose

WITH ADDITIONAL FINGER COATED STYLE

DESCRIPTION

ActivGrip™ XA-324 is taking Towa's already impressive line of premium industrial gloves a step further into the future. The XA-324 is specifically designed to provide maximum "all-around" performance on slippery grip applications in non-hazardous chemical environments. The 13-gauge seamless wooly nylon liner and "finger coated style" provide an excellent flexibility, minimizing hand fatigue, thus increasing productivity. A soft yet durable latex coating technology "MicroFinish®" adheres to virtually any dry or slippery surface.

FEATURES

Covered Fingers

"Finger Coated Style" provides more safety to all fingers as well as more protection from soil, dirt and water penetration

Water Resistant And Less Penetration

Unlike similar glove available in the market, ActivGrip™ XA-324 offers more protection against water penetration into not only the palm but also the fingers. The double coated surface keeps hands clean from water penetration.

Grip Performance

With MicroFinish® technology, a soft yet durable latex coating promises its performance under dry and wet conditions.

Comfort

A 13-gauge seamless nylon liner and ergonomic design assure maximum comfort and minimum hand fatigue.
