## ULTIMATE WORKABILITY

### DESCRIPTION

PowerGrab® Thermo 3/4 is specifically designed to provide extra warmth and excellent safety. In addition to the fully coated thumb like other PowerGrab® series, all fingers and knuckles are coated for protection vulnerable areas.

### FEATURES

#### Extra Warmth and Safety

The 3/4 covered coating offers more warmth as well as more safety to all fingers and knuckles by keeping the user's hand away from soil, dirt and water penetration

#### Grip Performance

With MicroFinish® technology, a soft latex coating promises its performance under dry and wet handling.

#### Comfort

PowerGrab® Thermo 3/4 offers more protection against water penetration. The double coated surface keeps hands clean for water handling.
